Personal Statement

I am a versatile software development professional with expertise in HTML, CSS, JavaScript, PHP, SQL, Git, Bootstrap. Proven track record in academic projects, showcasing a solid foundation in software development principles, analytical thinking, and effective problem-solving. As a collaborative team player, I am enthusiastic about applying my skills in a professional software development role, dedicated to contributing to innovative solutions and embracing continuous learning.

Technical Skills

HTML, CSS, PHP, JavaScript, GitHub, GIMP, Bootstrap, SQL, Database, Xampp Server, Wamp Server, Visual Studio, Notepad++.

Other Skills

Excel, Project Management, Critical Thinking, Communication Skill, Problem Solving, Microsoft Office, Attention to Detail, Strong organizational skills, Artificial Intelligence, Email Marketing.

Experience

Full Stack Developer

Connectec

January 2025 – February 2025

- Develop and maintain responsive web applications using HTML, CSS, JavaScript, PHP, and Bootstrap to deliver user-friendly experiences.
- Design, optimize, and manage SQL databases to ensure seamless data integration and retrieval for web applications.
- Implement version control systems using Git for collaborative development and efficient code management.
- Conduct end-to-end project development, including requirements gathering, system design, and deployment.
- Integrate third-party APIs to extend application functionalities and ensure interoperability.
- Perform thorough testing and debugging to identify and resolve issues, enhancing application reliability and performance.
- Ensure code quality by following industry best practices and conducting code reviews.
- Maintain project documentation and communicate effectively with stakeholders.
- Stay updated with emerging technologies to continuously enhance development capabilities.

Relief Supervisor

Admiral

August 2024 – January 2025

- Oversee venue operations and manage staff during shifts.
- Act as manager in the absence of the venue manager.
- Delegate tasks and motivate the team to meet KPIs and targets.
- Handle customer service escalations and promote venue offers.
- Manage the master cash float and handle cash transactions.
- Perform key holding duties and complete administrative tasks.
- Ensure compliance with gambling laws and maintain a secure environment.

Customer Service Manager
Ladbrokes Coral (Entain PLC)
August 2023 – November 2023

- Supervise the shop as a Duty Manager, developing a strong sense of commercial awareness and understanding how team performance impacts shop profitability.
- Delivering outstanding customer service, ensuring a seamless customer journey, and effectively resolving complaints and issues related to a diverse range of sports and events betting.
- Implement and upheld market-leading Responsible Gambling and Self-Exclusion Guidelines to protect customers, consistently adhering to the policy.

PHP Developer
Sam's Designs
July 2018 – June 2022

- Designed technical solutions to meet project requirements, led end-to-end development of diverse web projects, and collaborated with cross-functional teams and project managers.
- Demonstrated proficiency in PHP, Laravel, HTML, CSS, and JavaScript, leveraging Git version control for collaborative and efficient code management.
- Designed and optimized MySQL databases, implementing efficient queries to enhance overall performance.
- Successfully integrated third-party APIs, collaborating with external service providers for seamless integration.
- Implemented robust testing procedures and code reviews, resolving complex technical issues through systematic debugging.
- Configured and maintained XAMPP and WAMP servers, ensuring seamless interaction between PHP, MySQL, and server environments.
- Utilized Visual Studio for efficient code development and debugging.
- Introduced creative solutions for challenging technical problems and actively contributed to brainstorming sessions.
- Adapted quickly to emerging technologies and participated in professional development activities.

Education

IT Career Switch
Full Stack Web Developer Traineeship
Sep 2022 – December 2023

Relevant Subjects: HTML, CSS, JavaScript, PHP, SQL, Git.

- **Portfolio Project #1: "Gazetteer"**

"The Gazetteer" is an interactive world map project powered by the LeafletJS library. Its primary purpose is to provide users with a dynamic map where they can overlay various points of interest. Additionally, it offers convenient popup modals that can be triggered to display country-specific information. This functionality is achieved through multiple API calls, enabling users to access detailed data for specific countries.

Project 1 Link: <https://github.com/AnkitaSathvara/AnkitabenSathvara/tree/main/project1>

- **Portfolio Project #2: "Company Directory"**

The "Company Directory" project is designed to simulate a company database environment. This project leverages AJAX calls to interact with PHP scripts, facilitating seamless communication with a SQL database. Through this system, it becomes possible to perform a wide range of operations, including Create, Read, Update, and Delete (CRUD), while ensuring the database's integrity and consistency.
